

LEARN-SHARE-GROW 2008 TO BE WAKE-UP CALL FOR NZ MANAGERS

NZOQ learn share grow Conference 2008, Rydges Lakeside Resort, Queenstown, 22-24 October 2008.
<http://conference2008.nzoq.org.nz/>

Press release, NZOQ, 10-Jul-08: An address from Roland Jahnke, director of multi billion-dollar global logistics company Deutsche Post World Net (DPWN), may be just what NZ managers need to hear to help lift their game and profit in spite of the economic doldrums.

As the country yearns to play catch-up in OECD productivity rankings, the need for quality management is greater than ever, says NZ Organisation for Quality (NZOQ) general manager Helen Baines.

“There is an urgency in New Zealand to lift the capability of managers. Now, more than ever, we need managers who can project and grow their business sustainably on a globally competitive stage,” she says. “That is a big part of the learn-share-grow 2008 conference.”

NZOQ has announced that Jahnke, the German director of the world’s largest logistics company, DPWN, will be among an exclusive line-up of speakers at learn-share-grow 2008, being held 22-24 October.

Jahnke, regarded as a leading expert in business excellence for postal and express companies around the world, will be one of 27 speakers attending the two-day conference in Queenstown, and one of six high-profile keynotes presenting papers.

NZOQ general manager Helen Baines says the speaking programme comprises a high standard of quality professionals heralding from a wide spectrum of industry sectors in New Zealand and abroad.

“We’re delighted to have secured the support of such a high calibre of professionals for learn-share-grow 2008. Quality, Productivity and Sustainability are the conference’s key themes assuring delegates an extensive array of insightful and business-relevant topics,” Baines says.

Jahnke’s keynote address, “Sustainability - Facing the Challenges of Global Logistics”, will focus on the unprecedented redesign of DPWN over the past few years. As a result of this redesign, Deutsche Post has moved from a fiscally deficient national agency, with public service structures, to a highly profitable global player with an expanded product portfolio.

The DPWN group, which lists 520,000 employees in over 220 countries, is the sixth largest employer in the world and recorded total earnings of over \$106 billion in 2006.

Also presenting a keynote address at the conference, Sarah Benjamin, a sensei for Vanguard Consulting Ltd in the United Kingdom, will speak on “Systems Thinking for Service Organisations”.

Vanguard helps organisations move from a command-and-control to a systems-thinking approach to the design and management of work. The Vanguard Method draws on the principles of the Toyota Production System, and has been uniquely transposed by Vanguard to be used within service industries.

Other speakers attending will present papers covering such topics as "Can Lean Six Sigma Improve Productivity in NZ Organisations?," "Quality Challenges in the Not-for-profit Sector", and "Facing Sustainable Challenges - From the Emissions Trading Scheme (ETS) to Carbon Footprints in Supply Chains".

Preparation for learn-share-grow 2008 is gaining momentum, with sponsors so far including NZOQ, JAS-ANZ, Landcare Research, NZ Institute of Management, the Centre for Organisational Excellence Research, BPIR.com, the NZ Business Excellence Foundation, Communicate It Ltd, Resene and Tait Electronics.

Gold Media Partner NZ Management magazine, and Silver Media Partners Asian Quality and The Press, will be providing editorial and advertising in the lead-up to and following the event.

NZOQ has also committed the conference to being carboNZero-certified. Baines says by achieving the carboNZero grade, all those involved with Learn-Share-Grow 2008 will be encouraged to reduce their carbon footprint as much as possible.

"All presentations and exhibition material will be shared digitally instead of on printed material, waste will be reduced or recycled, tap water will be encouraged over bottled water, natural lighting will be used where possible, and more.

"We are endeavouring to not just talk the talk, but walk the walk when it comes to sustainability," she says.

To register your interest, or to find out about becoming a sponsor, please visit <http://conference2008.nzoq.org.nz> or contact Organising committee Chair Michael Voss on 0274 433 908.
